Make it  
come true.

Where Olympic forest marches down  
from snowy crags to meet the sea

Skilful work,  
joyfully  
accomplished.

Do you imagine  
building beautiful  
things out of wood  
with your own hands?

Our master craftsmen teach people **just like you** to work with wood and build wooden boats.

## A master-apprentice relationship . . .

. . . built the wooden boats of old. It still works today. We keep traditions alive.

Learn a vocation that lasts a lifetime. Or come for a workshop, and stay for a day or week.

No prior experience needed.

Just eagerness to listen, learn, and do.

## The romance of wood and water beckons.

Answer the call.  
Do your dream while you can.
